

**About 200,000 babies  
are born with Sickle  
Cell in Nigeria each  
year and more than  
half will not make it  
to their 5th birthday.**

**That is a  
devastating  
fact that we can  
do something about.**

**The McCourty Twins**

**Super Bowl Champions  
Tackle Sickle Cell Founders**

**...are joining forces for our first service project abroad.**

## **The goal of Project Nigeria**

**is to bring much needed  
support to some of the  
most disadvantaged  
children in the world.**

**The immediate goal is to provide 12 months  
of desperately needed vitamins to 2,000  
children with Sickle Cell Disease in Nigeria.**

**Then we will provide other necessities  
such as diapers and formula, basic  
laptops for child education and other  
critical supplies.**

**10 service project ambassadors  
will visit the pediatric Sickle Cell clinic  
in Abuja, Nigeria in May 2022  
to experience their challenges firsthand.**

**The 10-person team is starting a  
personal fundraising campaign  
and then the McCourty  
Twins are going to match  
the first \$25,000 of our  
fundraising.**

**So your donation goes twice as far!**

**"Our goal over the next one year is to serve  
at least 2,000 kids with lifesaving nutrients  
and vitamins to help them live as close to a  
normal life as possible, even with the  
diagnosis of Sickle Cell Disease.**

**Thank you for your partnership and  
God Bless!"**
